PALOMA CAMACHO

The eruption of kundalini energy from its secret nest at the base of the spine has been revered by some as bringing ecstasy and enlightenment, and disparaged by others as simply disabling, terrifying and dangerous. Mystics may call it a method of transformation. Skeptics consider it imaginary. All who have experienced it know it as a mystery and a profound life-altering experience. This book, based on 25 years of interviews with over 2000 people who have had this awakening, describes seven categories of phenomena that may occur, tells the eastern perspective of kundalini science, offers guidance on coping with the erratic energies and shifts of consciousness that happen, and reveals the inward path to self-realization that follows the deconstruction initiated by a kundalini arising. If you think you might be in this awakening process, you engage in spiritual or energy practices, or you have activated energies following a near-death experience or trauma, this book is your companion and guide.

Shri Mataji writes that "India is a very ancient country and it has been blessed by many seers and saints who wrote treatises about reality and guidelines on how to achieve it." This is just such a book. This book is both an introduction to Sahaja Yo-

ga, describing the nature of the subtle reality within each of us, and a step-by-step handbook on how to be a good Sahaja Yogi, the nature of Sahaj culture, how to be a leader and how to raise children. "The knowledge of Sahaja Yoga cannot be described in a few sentences or one small book, but one should understand that all this great work of creation and evolution is done by some great subtle organization, which is in the great divine form."

Kundalini Yoga as taught by Yogi Bhajan® "The Kundalini is known as the nerve of the soul. This is to be awakened. Your soul is to be awakened. When soul gets awakened, there remains nothing... If your soul is awakened, what else do you need?" - Yogi Bhajan. Kundalini Yoga is an oral tradition dating back hundreds if not thousands of years. In the early 1970's, when this ancient technology was being presented, students would patiently wait to hear from fellow students and teachers what Yogi Bhajan had just taught. Students took notes, made drawings and passed them on... In a certain sense it was revolutionary that this sacred, once secret science was being recorded and distributed. Never, in history, had this been done before. It was very exciting when a Kriya-write up, manual or a "Beads of Truth"-magazine became available and when the Meditation

Manual for Intermediate Students was published and distributed, it was a revelation. So many amazing Kriyas! It felt like as long as one had this manual, one could practice Kundalini Yoga for the rest of the life. It was like having the security of a treasure that would never diminish or get old. This wonderful book: KRIYA - Yoga Sets, Meditations & Classic Kriyas contains many of the Kriyas from the Meditation Manual for Intermediate Students as well as many previously unpublished Kriyas from that era. Some of the models in the book are children of original student-teachers of Yogi Bhajan... You will enjoy these effective and powerful Kundalini Yoga Kriyas. By practicing them, you can uplift yourself and inspire yourself to try some of these again and again! KRIYA - Yoga Sets, Meditations & Classic Kriyas from the Early Teachings of Yogi Bhajan contains: Challenging physical Kundalini Yoga Kriyas from the 1970s and 1980s More than 100 Meditations, including Visualizations, Praanayams, Silent Meditations, and Meditations with Mantra Includes Material from the Meditation Manual for Intermediate Students, K.R.I.Y.A., Under the Blue Skies, and more!

The term 'kundalini' is an ancient Sanskrit word referring to the powerful life force present in us all. The purpose of kundalini meditation is to open up this life force, helping it flow through each of the seven chakras, the energetic centres of the body. When kundalini is fully awakened you will feel amazing levels of energy with electric-like currents flowing up and down the nerves. You will experience inspiration and insight during meditation and doubts and anxieties will disappear. Your body will feel as light as air and your mind calm and serene. You will be at one with the divine. Kundalini Meditation explains, in guided stages, how to awaken this life force. First you must become aware of the energy channels running along the spinal cord - the nadis - and the chakras or energy centres which are strung along the nadis like jewels in a necklace. Next, by practising purification rituals, breathing exercises called pranayama, meditation, yoga poses and mudras (hand positions), you can ensure that kundalini is drawn up through the spine, opening each chakra in turn and causing it to 'bloom like a flower'. A special feature of the book is the guided meditations targeting common problems and issues - for example, releasing anger, lifting depression, promoting healing and inviting love into your life. This beautiful, inspiring yet practical book will bring you to a whole new level of awareness, inner peace and insight.

Sadhana brings us into an intimate alignment with the reality of who we are: as a creature of the Creator and as a human being. First published in 1974, Kundalini Yoga Sadhana Guidelines has become

the best-selling Kundalini Yoga manual of all time. Within these pages, you'll find the inspiration to keep returning breath-by-breath to your Self and to your practice. Sadhana is everything we do on a daily basis as our self-discipline and our commitment to our higher self. It is a spiritual practice in which we confront the tendencies of our mind and ego and, out of love, we invite in the dimensions of our soul, spirit, and intuition. In its essence, it is a process of refinement, development, and mastery. As we learned from eastern traditions, a sadhu is a being who has disciplined himself. Likewise, the definition of a yogi is a person who has totally leaned on the supreme consciousness, which is God. The purpose of sadhana is to arrive at the place where we go beyond our ego and its limitations. Morning sadhana—done before the sunrise—is a special time when we sit before the altar of our own consciousness and have the opportunity to clean up our inner world before we engage in the outer world—our jobs, our families, our responsibilities. This manual exists to serve you and to help you uplift yourself and others. It is designed for both the new and the experienced student. It focuses on the essential practice of Kundalini Yoga. A material that offers lectures, essays, insights, and a series of exercises that one can experience and improve one's own personal practice.

mary guide to daily practice. Readers explore Kundalini Yoga's key principles, enriched by Snatam Kaur's stories and insights as a lifelong practitioner. She then teaches its five stages of practice, including preparation, sacred recitations, breathing fundamentals, energizing yoga sets, meditations, morning chants, and more.
